

TARAWA

Introduction of Port Service Charge (PSC) and Terminal Handling charge (THC)

Dear Valued Customers,

We have been advised of some very large increases in Port and Stevedoring charges in Tarawa which have become effective immediately.

An analysis of the increases show Port Charges will rise by 37.5% and nearly 48% on stevedoring .

These increases have been made effective immediately and we have no option but to pass these on by way of a PSC and a THC..

The following charges will apply

THC	A\$97.50 per FCL A\$5 per R/tonne for Breakbulk A\$25 per vehicle
PSC	A\$50 per TEU A\$2.00 per R/Tonne for Breakbulk A\$25 per vehicle

The first voyage the revised rates take effect is Southern Phoenix V 9 loading in Suva on 22nd October November and will apply to all cargo on that vessel

We apologise for the lack of adequate notice but this reflects the short notice we have received from Tarawa Ports
